Express tents (extended)

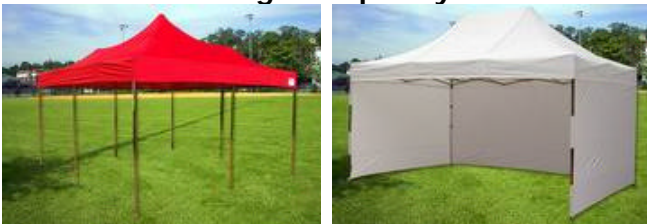

Offer

■ We are the **producer and exporter** of express tents (extended)

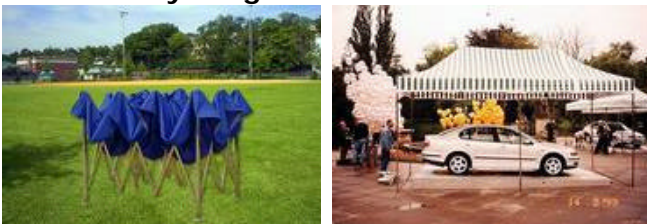

Materials

■ Our **Express tents** are made of our national raw materials of the **highest quality**.

Bottom

■ In **express tents** you can **easily regulate** height, what makes it easier to assemble them even on **very rough surface**.

Advertisement

■ Big **surface** of express tents is a very **good medium** for advertising Your Firm. Using **silk-screen printing technology** we can create logo of the firm, print or advertising **slogan** on every tent.

■ Na **kazdym** namiocie, mozemy wykonac **technologia sitodruku**, logo firmy, grafike lub napis **reklamowy**.

Project

■ Our basic offer is enriched by products of non-standard dimensions, **constructions and colors**, which we custom make per **individual orders** for our client.

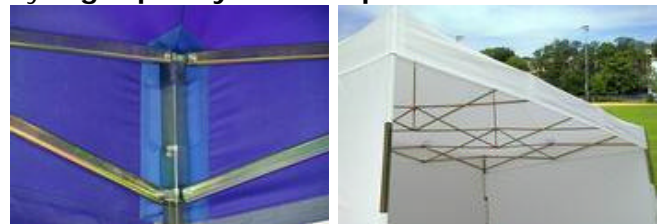

Universality

■ Express **tents** are suitable for a wide **module extension**. It's possible to connect them in different **shapes and surfaces**. In module connections we use gutters which perfectly **remove water**.

Frame

■ All parts of express **tent frames** endangered with wearing down (movable parts) are protected by **high quality silicone pads**

Frame of the construction is made of **steel** shape **golden** galvanized.

■ **All elements** of the frame are secured with hole plugs made of plastic.

Assembly

■ **Fast** folding and unfolding of the tents, without **necessity to use tools**, assures comfort, **easy** transportation and trouble-free maintenance. Our tents are **resistant to atmospheric** conditions what prolongs significantly life span of our products.

Size

■ **Express tents** - size from **200x200** to **600x600**, height from **200 to 250** cm, height at the peak **270** cm. Side walls with windows or without, in **any** colour.

Packaging

■ Each of our products is equipped with a packaging (cover or bag).

Built-up

■ Side walls of **express tents** are easily attached to the roof by means of Velcro. We can also sew in windows in side walls as well as **install zipped up doors**.

The construction

■ **The construction** of roofs in our tents makes it possible to fit **lighting** and heating inside them. **The cover** of the tents is made of polyester, **water resistant materials**.
